Client

A Group of collective CG artists from UK

Industry

Animation and graphics designing

About Client

Our client is a unique group of professional CG artists, who have joined together from around the world to offer, 3d illustration, 3d animation, services. Their services also include creating premium quality 3d images and 3d animation for the advertising, entertainment and architectural industries.

Challenge

Our client approached us with a need of entire new dynamic website for themselves, which showcases their achievements and their area of expertise in the best possible way. The website should be able to highlight their skills in 2D & 3D images, 2D and 3D animations as well as their graphics and web designing skills. Blog, as well as twitter, Facebook integration was also the part of the requirements.

Key Requirements

- Pop Functionality without scrolling images.
- Still Image / Moving Image Section.
- Still Image Relation with News section.

Technologies

- Asp.net 3.5
- SQL Server 2005
- Java script
- jQuery
