Brain Tap – Windows Phone 7

Industry

Windows Phone 7 App for Education / Gaming

Client

In-house application

About – Brain Tap

Brain Tap is a Windows Phone 7 App designed especially for kids, and even for adults. The app is designed around basic mathematics, and proves to be a fun way for kids (and even for adults) to learn basic math and numbers. The user can choose from five basic math skillset to master, which includes Addition, Subtraction, Multiplication, Division and one on a Random basis. The app also features three difficulty levels.

Besides, the great and innovative kid-friendly design of app represents bright colours, textures and images. Overall, it allows the kids to learn by playing with Numbers and Math, and increase their computational skills.
