Industry

Creative and film production industry

About Client

Our client is a job consultant firm based in London, UK. They are dedicated to servicing creative and film production industry with significant years of experience.

Challenge

Our client approaches us with the following requirements:

- Dynamic job-portal website
- The site should be dedicated to creative and film production industry.
- Should allow the job seekers and free lancers to create profile and CV.
- Should allow companies to create their profiles.
- Should be integrated with search functionality.
- Third party ads integration.
- The website should be integrated with creative images.
- The data should remain safe and protected.

Technologies

- .Net 2.0
- SQL Server 2005
- Ajax
- Java script
- jQuery

Tools

- Photoshop CS4
- Illustrator CS4
- Dreamweaver CS4

Solutions offered by Concept Infoway

- Dynamic CMS website based on Asp.net 2.0 and SQL server 2005.
- Elegantly placed images and colors with Adobe tools.
- Allowing job seekers, recruiters, freelancers and companies to create their profile.

- Integrated third party ads functionality.
- Integrated companies' vacancy ads functionalities.
- Integrated search functionalities, which allows the users to search jobs via keyword, industry, position, location, salary and type of job.
- Easy navigational menu, along with easy search functionalities.
- News feeds integration.
- Admin panel in CMS, allowing the client to post and / or manager their news content, new jobs posting, website content and images and much more, on their own from admin panel.
